DATE OF BIRTH

27 August 1981

NATIONALITY

South African

GENDER

Male

LANGUAGES

Afrikaans
English

EDUCATION

Tertiary

Diploma: Architectural
Draughting (NQF L6)
Intec College
2008 - 2009

Certificate: AutoCAD (NQF L4)
Intec College
2007

Certificate: MiTek 20/20
2007

Secondary

PW Botha Technical College
Year of Matriculation: 1999

EXPERIENCE

SEPTEMBER 2025 - CURRENT

Zuckerman Sachs Architects - Architectural Draughtsman
Cape Town

- Developed detailed architectural drawings and construction documents (from Stage 1 to 6) for residential and commercial buildings, in accordance with SANS 10400.
- Interpreted and translated architects' design concepts into working drawings for use by contractors.
- Ensured all designs and drawings complied with South African National Building Regulations (SANS 10400 and SANS 10400-XA) and other relevant codes.
- Assisted in the project documentation process, including preparing schedules and specifications.
- Conducted site surveys to assess project requirements.
- Completed SANS-Form 1 and Form 2 for submission purposes.
- Extracting data from local municipality via ArcGIS and applying to architectural drawings and 3D models.
- Participated in bi-weekly site meetings with professional team to review project progress.

JANUARY 2025 - AUGUST 2025

Self-Employed - Architectural Draughtsman
Somerset West

- Produce detailed architectural drawings and construction documentation for residential projects in compliance with SANS 10400.
- Prepare and submit plans digitally to local authorities for approval.

JULY 2009 - DECEMBER 2024

Architectural Draughtsman
CSM Consulting Services (Somerset West)

- Developed detailed architectural drawings and construction documents (from Stage 1 to 6) for residential, commercial and industrial buildings, in accordance with SANS 10400.
- Interpreted and translated architects' and engineers' design concepts into working drawings for use by contractors.
- Ensured all designs and drawings complied with South African National Building Regulations (SANS 10400 and SANS 10400-XA) and other relevant codes.
- Assisted in the project documentation process, including preparing schedules and specifications.

SKILLS & KNOWLEDGE

- Proficiency in CAD and BIM software
- 3D modelling and rendering
- Technical drawing and detailing
- Knowledge of building regulations and standards
- Site surveying

SOFTWARE PROFICIENCY

- Autodesk AutoCAD
- Autodesk Revit
- Autodesk Vehicle Tracking
- Autodesk ReCap Pro
- ProgeCAD
- Sketchup
- Enscape
- Lumion Sketchup
- V-Ray
- Microsoft Office
- ArcGIS
- GIMP

- Conducted site surveys to assess project requirements.
- Managed and organised drawing submissions for local government approvals.
- Utilised FARO point cloud scanner and software to capture precise 3D data of existing structures.
- Developed architectural renderings for presentation to clients.
- Extracting data from Geographic Information System (GIS) and applying to architectural drawings and 3D models.

APRIL 2008 - DECEMBER 2008

Computer Technician

RT Solutions (George)

- Installation, maintenance and repair of computer systems and equipment.

APRIL 2007 - DECEMBER 2007

Roofing Engineer/Designer

Garden Route Trusses (Knysna)

- Conducted site surveys to assess roofing needs.
- Produced detailed roof truss layouts, rafter designs, and structural plans.
- Generated precise cutting lists and material take-offs for roofing components.

FEBRUARY 2005 - MARCH 2007

Architectural Draughtsman

T&B Log Homes/Tompson & Buttner Construction (Knysna)

- Developed technical drawings and specifications for the construction of log homes.
- Prepared detailed material take-off lists for projects.
